NATIONAL PASSWORD DAY

Today is a great day to change your passwords!

- Remember to change your passwords for every account often
- Use a different password for each account
- #LayerUp and add extra protection to your accounts by using Multi-factor Authentication
- Use a trusted password manager to keep track of all your passwords (some even create secure passwords for you!)

DIGITAL WALLET NOTIFICATIONS

Did you know that we have Digital Wallet Notifications?

- When you add your Peoples State Bank Debit Card to a digital wallet, you get a notification stating your card has been added. If you receive this notification and you have not added your card to a digital wallet, please make sure to contact the bank immediately.
- When ever a purchase is made using your Digital Wallet, you will receive a notification. If you do not recognize the purchase, please make sure to contact the bank immediately.

New Verification Method

To enhance the security of your accounts and personal information, we are updating our security questions. Please see a teller if you need assistance.

"THAT WILL BE
\$4.50 AND YOUR
PASSWORD
PLEASE"

Imagine this: The ice cream man "needs" your bank password to run your card. Sounds absurd, right? If it seems off in real life, it's just as weird over a phone call, text or email.

#BanksNeverAskThat.
